Profile

I am a BackEnd Software Developer with over 2 years of experience, specializing in the development and maintenance software systems. Proficient in a wide range of technologies, including Django, Flask, and .NET, and skilled in leveraging Agile methodologies like Scrum to consistently meet deadlines and project goals. Passionate about learning new technologies and applying my existing expertise to drive innovative solutions and deliver measurable results.

EXPERIENCE

- Software Engineer Intern | Qualidados | Brazil 10/2022 - 08/2024
- Automation Tool Development:
 - Developed 6 automation tools that reduced clients' time spent on repetitive tasks by up to 60%, leading to an estimated 30% increase in overall team productivity.
- API Implementation and Webhooks:
 - Developed and integrated APIs and Webhooks to optimize workflows, reducing manual interventions by 40% and improving data accuracy.
- Full Development Lifecycle:
 - Participated in the full development lifecycle of automation tools, from identifying requirements and dependencies to software implementation and application deployment, contributing to a 20% reduction in project delivery time.
- Code Versioning on Microsoft TFS (Team Foundation Server):
 - Managed code versioning in Microsoft TFS (Team Foundation Server) using Git, ensuring efficient control and collaboration in the development of automation tools.
- Azure Cloud Services:
 - Deployed applications using Virtual Machines (VMs) and leveraged Azure Cloud services such as Microsoft Graph to build automation tools.
- My contributions to the development of automation tools led to a 60% reduction in task execution time, resulting in a 30% increase in overall operational efficiency and an estimated 20% reduction in operational costs for the organization.

EDUCATION

Undergraduate in Technology: University ESTÁCIO - Brazil - 02/2022 - 12/2024

Education: Systems Analysis and Development

TECH

- Python - (Flask ,Django ,FastAPI)
- Angular - (TypeScript)
- Database: MSSQL,POSTGRESQL
- C# (ASP.Net, Web-API)
- Git
- Docker
- Github Actions
- AZURE cloud Services (Active Directory)

Languages

Inglês - C1 (Advanced)
